Brand History

Huida Development History

1982

Huida Sanitary Ware's predecessor, Huanggezhuang Ceramic Factory, was established.

1995

Established Huida Ceramic Group and officially launched the "Huida" brand.

1999

The first natural gas tunnel kiln production line in Huida has been put into operation.

2000

Huida has been designated as a "designated water-saving ceramic production enterprise" by the National Building Materials Administration and the Ministry of Construction.

2001

Approved by the Ministry of Human Resources, Tangshan Huida Ceramics (Group) Co., Ltd. Postdoctoral Workstation has been established.

2002

Huida Yijie glaze technology has been successfully developed, creating a pioneer in the industry.

2005

Chairman Wang Huiwen won the title of "National model worker".

2007

Huida participated in the 2007 Moscow China National Exhibition in Russia.

2009

Premier Wen Jiabao of the State Council inspects Huida. Huida entered the Shanghai World Expo project.

2008

Huida is used by eight Olympic venues, including the National Stadium. Wang Huiwen, the chairman of the board, was elected as a deputy to the 11th National People's Congress.

2010

Huida International Home Furnishing Park has been completed and put into operation.

2011

As a member of the Chinese business delegation, Wang Yanqing, President of Huida Sanitary Ware, accompanied President Hu Jintao on his visit to the United States.

2017

Huida Sanitary Ware has successfully listed on the main board of the Shanghai Stock Exchange, marking a new upgrade in brand development.

2012

Huida has been approved by the Ministry of Housing and Urban Rural Development as a national residential industrialization base.

2016

Huida was evaluated by the World Brand Lab as one of the "2016 China's 500 Most Valuable Brands", with a brand value assessment of 15.196 billion yuan.

* The brand value data comes from the World Brand Lab's 2016 "China's 500 Most Valuable Brands" report.

2018

Huida Sanitary Ware has released a complete decoration strategy, launched the overall bathroom project, and officially established Huida Zhugong, taking the lead in opening up the blue ocean market of domestic overall bathroom.

2019

Huida has become the official sponsor of the Chinese national women's volleyball team.

2020

CCTV News Network reported that Premier Li Keqiang connected Huida Bathroom at the opening ceremony of the Canton Fair Cloud, and inspected Huida Cloud Exhibition Hall online.

2021

In March 2021, Huida Chongqing 5G Smart Factory was put into operation.

2022

Huida celebrates its 40th anniversary.

HUIDA 惠达

2024

Establish a new brand positioning as a "Healthy Bathroom Expert" and comprehensively renew the brand image. Ranked among China's 500 Most Valuable Brands, with a brand value of 71.893 billion RMB in 2024.

Design

A LEADING

Anti Bacterial Technology

Adding nano silver ion antibacterial material, the antibacterial rate against *Escherichia coli* and *Staphylococcus aureus* is >99%.

Pre-wetting Technology

After the human body is seated, the water flow brushes in a circle to ensure the wall of the circle is moist and enhance the anti fouling performance.

Intelligent Filter

Wrap calcium and magnesium ions in water to prevent scale formation, ensure cleanliness, and remind replacement.

Comfortable & Cleanliness

Hot And Cold Massage, Comfortable And Clean

Adopting an alternating cycle of 15 seconds of hot water and 5 seconds of cold water stimulation, experience a brand new cleaning feeling, healthier, cleaner, and more comfortable.

Ultraviolet Light

Bacteria Are Killed

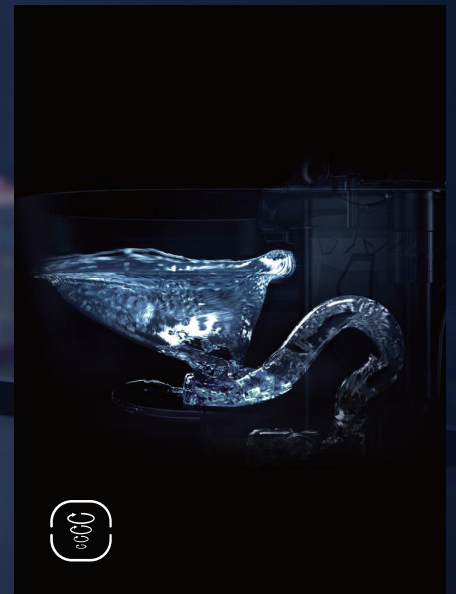

Self-Cleaning Nozzle

Automatic nozzle cleaning procedure means that before and after using, automatically clean the nozzle to ensure that the nozzle surface is cleaning and sanitary.

Antibacterial Nozzle

Nano silver ion coating spray head, effectively restrain the *Escherichia coli*, *staphylococcus aureus*, *candida* reproduction.

Flushing Technology

The potential energy of single column water is released instantly and circulates along the inner wall, forming 360° vortex water flow and scour in all directions, supplemented by the super-large sewage pipe and scientific jet port, which can effectively reduce the siphon resistance.

Intelligent Control

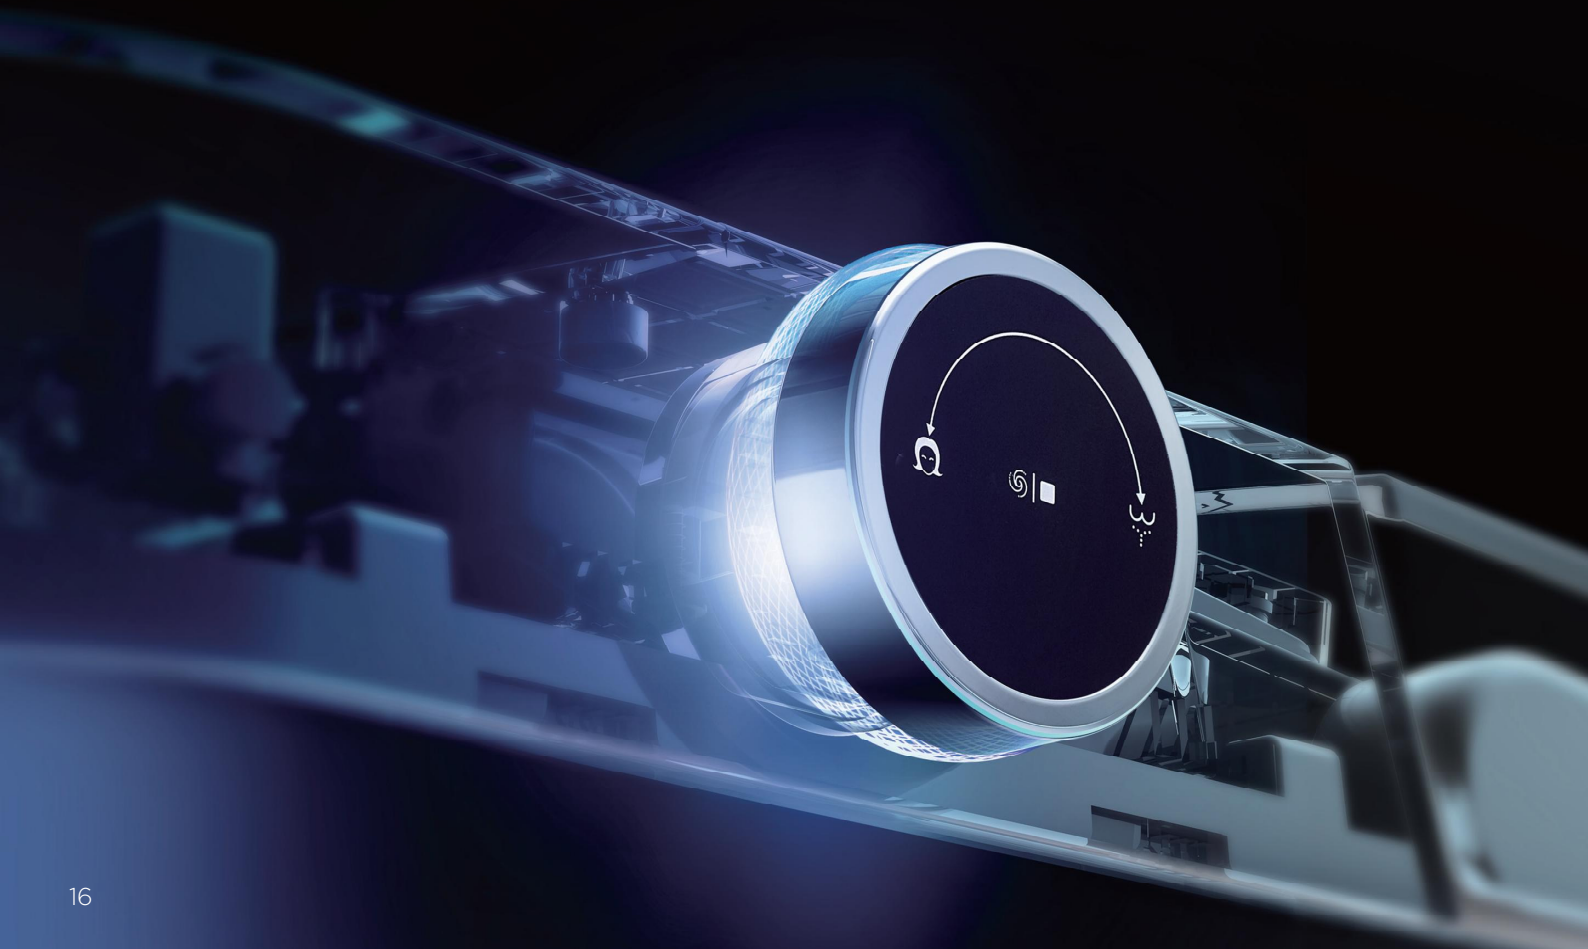

Infinite Knob

Rotate And Press To Switch Freely

Electrodeless Knob

360 ° knob with one click control,
The one click completion of washing buttocks and
rinsing water for women is convenient to use.

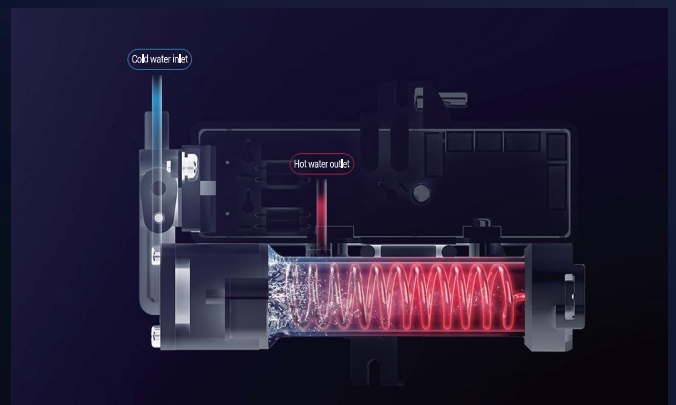

Foot Touch Flush

The front-end is equipped with a kick function, which allows for a gentle kick to flush water and avoid excessive hand contact, promoting a healthy lifestyle.

Wireless Remote Control

2.4G wireless remote control, instant response, no need to aim at the toilet, wall mounted handheld for easy use.

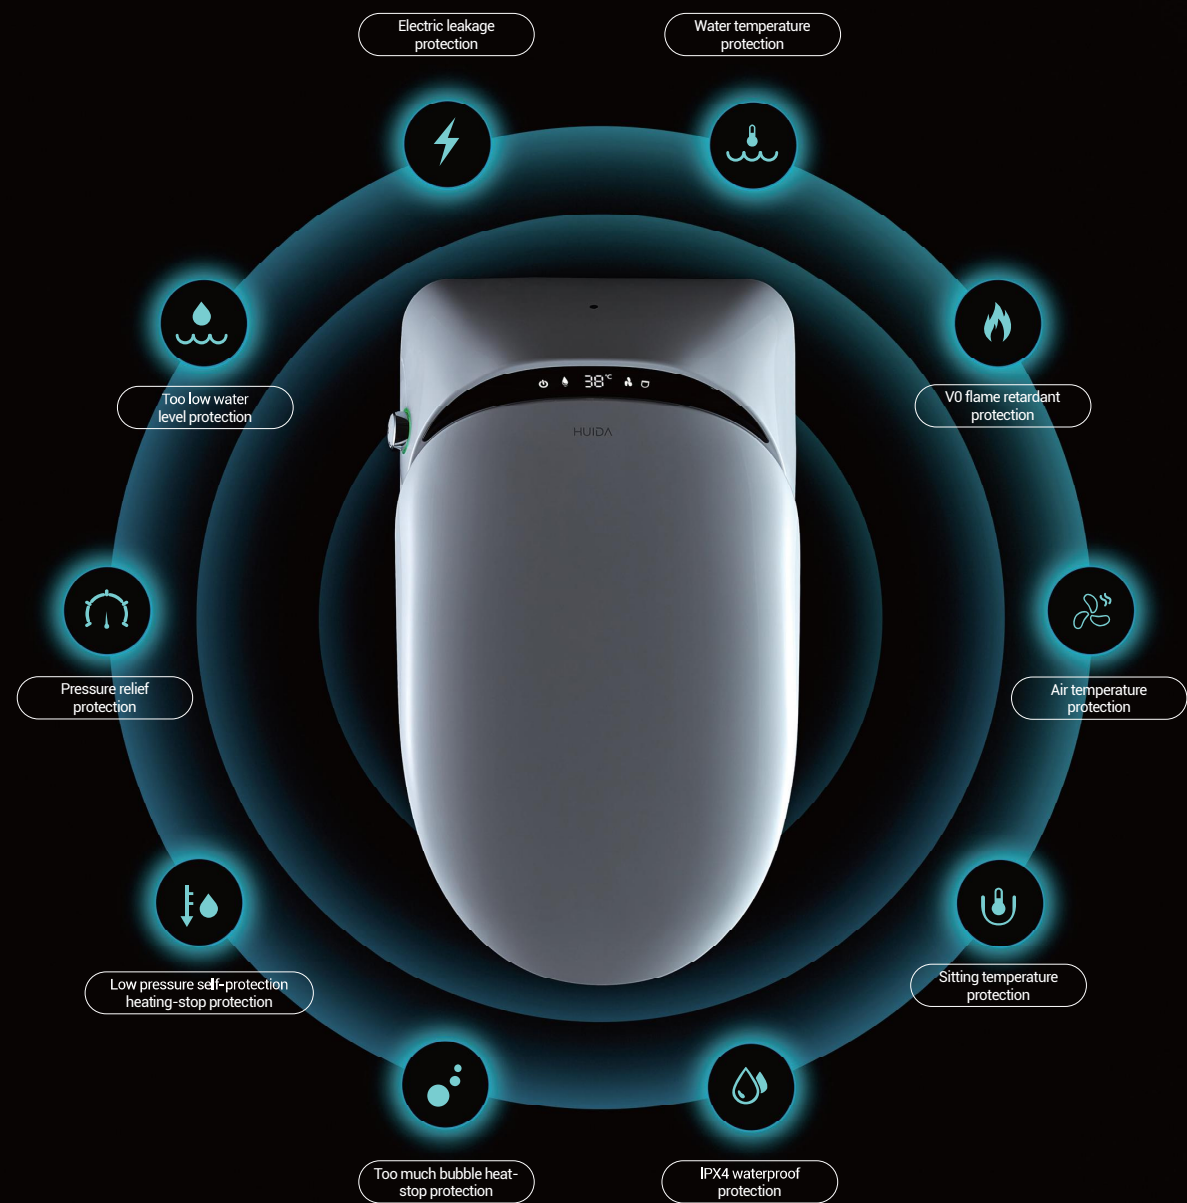

Instant Water Heating

Independent research and development of intelligent frequency conversion constant temperature control system, has a microcomputer to extract water temperature, flow rate and water outlet temperature and data changes, with frequency conversion speed of thousands of times per second to regulate the heating system energy consumption, achieve energy-saving effect, and effectively reduce the energy consumption.

10 Decathlon Safety Shield

Continuous innovative research and development technology, excelsior manufacturing process, ten new upgraded intelligent technology care, ensures 100% safe protection.

Soft Light At Night

Using environmentally friendly and energy-saving LED light sources for illumination. It not only meets the needs of using the toilet at night, but also avoids the embarrassment of difficulty falling asleep after using the toilet due to strong light stimulation.

Induction Open

Accurate microwave induction technology for precise target recognition. When the human body approaches, the lid automatically opens; When the human body leaves, the lid automatically closes.

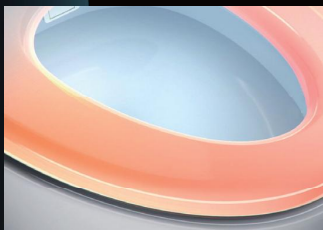

Water Temperature Adjustment

The cleaning water temperature can be adjusted according to personal preferences: low, medium, and high temperature to enhance user comfort.

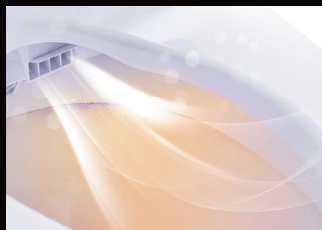

Anion Deodorization

Built-in anion generator can effectively kill bacteria, purify air, and eliminate peculiar smell from the sources, to let you enjoy pure and fresh sanitary life.

Seat Ring Heating

Seat ring temperature can have three grades for adjustment: low, medium and high-grade (the default temperature is medium), when seat ring temperature is significantly lower than the human body temperature, intelligent induction will heat the seat ring; and the application of low temperature anti-burning technology is extra carefree.

Warm Air Drying

Fuzzy control technology is adopted, and warm air temperature can have three-grade adjustment from room temperature to -55°C, and the outlet air temperature is variable according to external environment temperature to avoid too cold or too heat situation during use. Dry the residual water on the hip with comfortable warm air to make the cleaning area more clean and dry.

Zero Hydraulic Shock

Abandoning the traditional water pressure flushing method and adopting an independent water pump flushing method, it is quiet, water-saving, air isolated, and actively controlled for anti siphon and anti backflow, ensuring a constant flow flushing and comfortable and quiet operation.

V-shaped seat ring

Product Size
524x452x149 mm

- Suitable for V-type toilets
- Simple design, easy to install and maintain
- Keyboard operation, quickly achieve functions

Functional Characteristics

Dual Water Filtration

Dual water filtration, experience a new era of cleanliness from water source to use

Multiple Cleaning

Multiple cleaning, with special cleaning type, bring you the ultimate spa enjoyment

Frequency Conversion Heating

Large flow frequency conversion instant heating type, one second heating, $\pm 0.5^{\circ}\text{C}$ temperature difference, feel the extreme heating rate

Ultraviolet Sterilization

Medical grade ultraviolet sterilization, nanometer silver antibacterial, IPX4 waterproof, class V 0 fire proof, worry-free use

High-Efficiency Flushing System With 360° Superwhirl

Whirlpool style powerful flushing, high-pressure release of jet hole water column, 360 degree swirling downward flushing, creating surging flushing power, comprehensive cleanliness, and no dead corners.

Four Stage Siphon High Efficiency Flushing System, More Powerful, More Water Saving

3-inch enlarged drainage valve, upgraded water guide ring, combined with enlarged spray port, instantly forms strong siphon force, super siphon force S-shaped waterway, 360 degree smooth glaze coating throughout the pipeline, smooth and unobstructed drainage, and 3 liters of water can be flushed out in one go.

Super Drain Valve

The three inch oversized drainage valve instantly creates a strong water flow, with strong drainage and faster water inflow and outflow.

Upgrade The Guide Ring

Professional design of water guide ring structure, constantly storing water for use, with high-speed swirling water flow, combined with surrounding waterfall style water distribution holes, comprehensively cleaning the inner wall.

Super Jet-Burner

Super strong jet nozzle, instantly forming a strong jet siphon column, coupled with the strong water force of the drainage valve, quickly flushing out.

Super Flush Tub

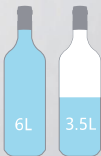

Super large siphon suction S-shaped waterway, 360 degree smooth glazed surface throughout the pipeline, ensuring smooth and unobstructed drainage.

Stronger momentum, less water usage

Release the power of every drop of water

Only 3.5L of water is needed for a single flush, although the water consumption is reduced, coupled with an efficient flushing system, it will maintain strong flushing power for you.

Square Single Sink

Size
585x445x185mm

- Number of Bowls: 1
- Inner Depth: 162mm
- Drain Location: Center
- Installation Type: Built-Up

- Features solid wall construction for added strength.
- Fine fireclay is chip, crack, and heat resistant (up to 2000° F).
- Apron-front, fireclay farmhouse sink fully glazed on all sides with 100% non-porous surface designed to resist stains and build-up of mineral deposits.
- Limited lifetime warranty.
- Fireclay sinks are made from 100% organic materials using high-pressure casting.
- Sinks can fit a standard strainer or garbage disposal flange (no special adapters needed) both sold separately.
- To ensure a perfect fit for your countertop and preferred installation setting, it is advised to use the sink itself as the guide for cutting countertops.

Diversified & Design

Starting from aesthetic trends, lifestyle habits, and usage scenarios, designers and structural engineers use meticulous digital calculations to plan storage spaces reasonably, taking into account both popular and personalized needs.

More Colorful

Modern, simple European, simple American, light luxury and other home decoration styles are fully covered, with mainstream pure white, wood primary color, high-end gray, fashionable midnight blue, cocoa color, environmentally friendly green and other options available to help you create your ideal home.

Optional Size

From 425mm to 1500mm and above, regardless of the size of the bathroom space, it can always meet the needs.

Receive Storage

Reasonable Partition

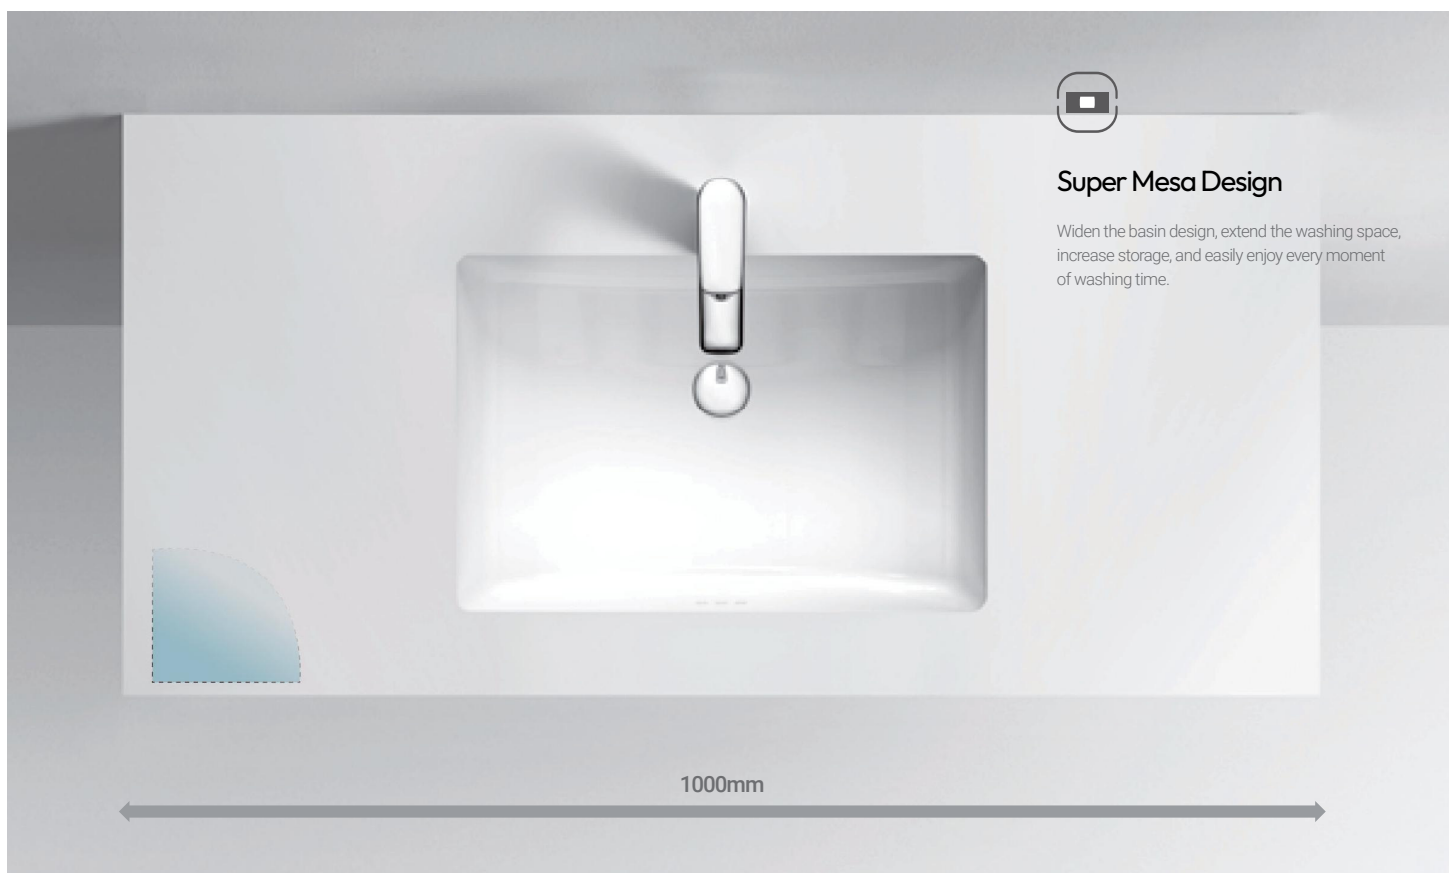

According to the usage scenario, optimize the cabinet structure, reasonably layout the storage space, and cooperate with the use of mirror boxes, side cabinets, storage shelves, and basins to maximize the storage function.

Opening and closing full body cabinet:
Large items can be easily packed.

Open and close pull-out combination cabinet:
Comprehensive storage, more storage.

Super Mesa Design

Widen the basin design, extend the washing space, increase storage, and easily enjoy every moment of washing time.

1000mm

Authentication

Social Responsibility

HUIDA has FSC Certificate, which ensures that products come from responsibility managed forests that provide environmental, social and economic benefits.

Quality Control Inspection

HUIDA arranges QC specialists in every production process to conduct 100% inspection before delivery. We use precision tools for quality inspection.

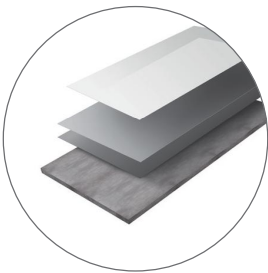

Sintered Stone

Sintered stone is more resistant to high temperature than the traditional stone countertops, while the stain resistance and scratch resistance are stronger, but also have stronger corrosion resistance is more suitable for bathroom use, convenient cleaning without special care.

- Water absorption to be less than 0.1%
- Firing temperature above 1200°C
- Mohs hardness level 5 or above

New Ecological Melamine Board

More than 85g high pressure paper ,safety, environmental protection, more wear-resistant, prevent cracking and deformation, waterproof surface guarantee, durable, accompany you for a longer time.

High Quality Pvc

Selected high quality 500kg/m³ environmental protection plate, not easy to cause damp and rupture phenomenon, environmental protection and durable.

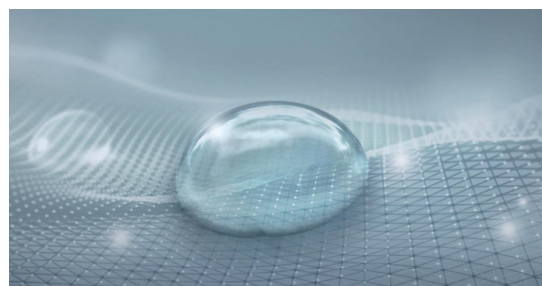

E1 Environmental Friendly Uv Paint

Adopt more healthy and environmentally friendly UV curing treatment, with 7 layers of dust-free spraying process, the paint surface layer by layer closed, reduce the damage of the bathroom moisture to the door panel, the paint surface effect is more smooth and full, in line with E1 level national standard.

Hardware Accessories

Drawer slides and door hinges, each carefully selected by Huida, are corrosion-resistant, rust proof, damping, buffering, and quiet. They are smooth and unobstructed for long-term use, and are commonly used to be new.

Ultra-Clean Self-Cleaning Glaze

The ceramic surface adopts a nano easy to clean glaze surface, which is smoother and less prone to dirt accumulation, making daily cleaning easier.

High Definition Mirror

High definition silver mirror, real and clear imaging, beautiful makeup without blind spots, enjoy a comfortable dressing moment.

Infrared Induction

Infrared sensing mirror light design, close to opening without touch. Satisfy the reflection function, brighten the bathroom space, and enjoy a comfortable dressing moment.

Led Mirror

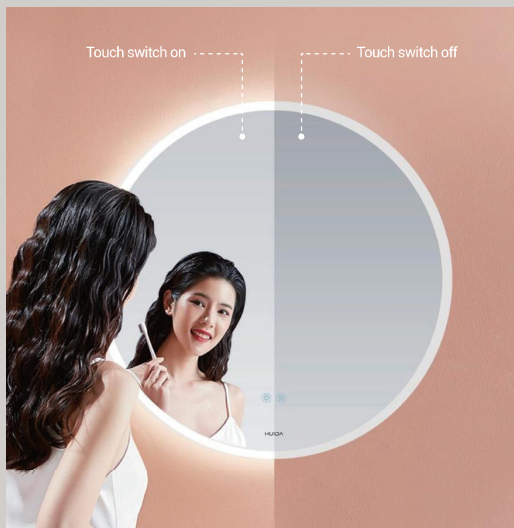

Demist

Our defogger warms the mirror's surface so there's no need to wipe away drips and streaks or wait for the condensation to clear.

Touch Control Dimming

Accentuate your lifestyle, your look, and your wellbeing with color temperature settings. Create a relaxing atmosphere with warm, white, or turn up the vibrancy for hair or makeup in cooler light.

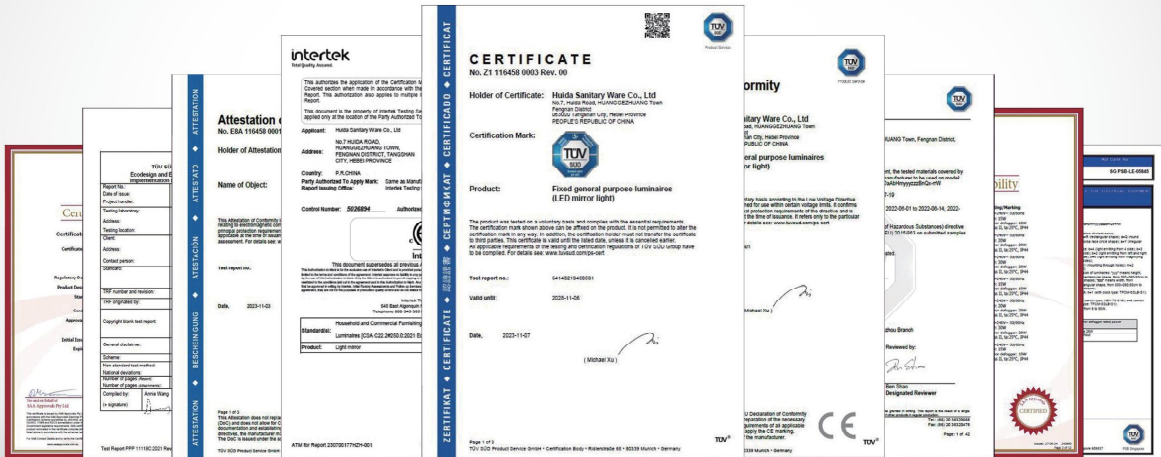

Dimmable Leds

Meet the sophisticated lighting that balances the room with your mood. Our lighted mirrors adjust to every changing moment of your day with dimming control.

Led Screen

Your day begins with reflecting timeliness, and an LED clock conveniently integrated with your mirror keeps you focused so you're out the door on time. Within-mirror controls, it's easy to set the time and tune the light to complement your mood or activity.

BATHTUB SERIES

Bath fun and vitality

Massage System

Technology pioneer, avant-garde experience. Built in multiple massage systems, combined with the fusion of light, shadow, and water, truly feel the light field surrounding the body inside and outside, achieving harmony between body and mind.

Surfing Massage

Strong hydraulic power instantly relieves the fatigue of a day's work. Let the skin fully immerse itself in the love of water flow, and immerse itself in the peaceful feeling of the soul and nature.

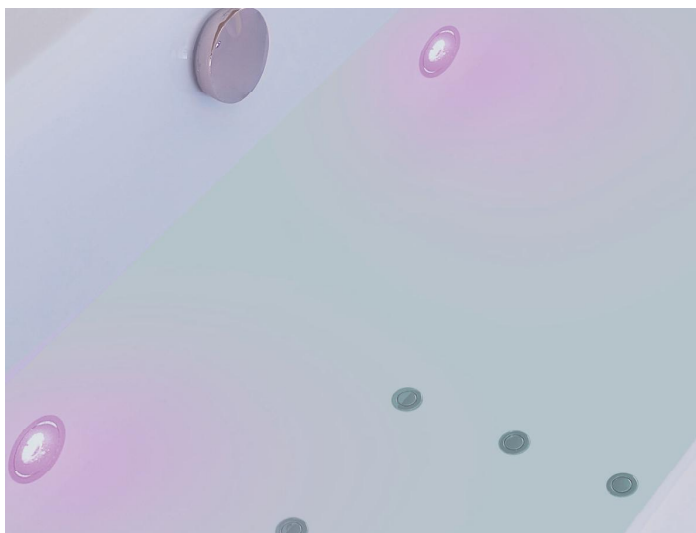

Water And Air Massage

The ever-changing bubble water flows up from the bottom, enveloping the body and penetrating deep into the skin, activating skin cells to achieve full body massage and relaxation.

Adjustable massage nozzle

The water flow from different parts of the body massages and relaxes different parts of the body, with various designed nozzles to relax the skin and provide a therapeutic feeling throughout the body.

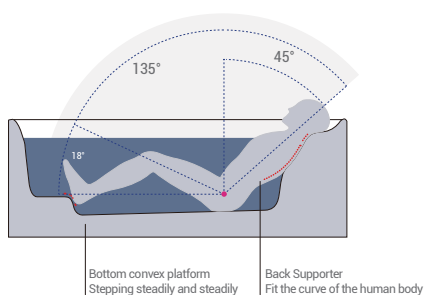

Led Magic Lights

Cylinder face colour lamp and pool bottom lamp can circulate change 7 colour color, in 7 colour light ripple lets person body and mind loosen, enjoy the shower fun that light and water bring adequately.

Easy To Operate

The side touch buttons are easy to recognize and select function modes, bidding farewell to tedious operations and enjoying a private SPA.

Ergonomic Design

The ergonomic principle of bathtub conforms to the curve of the human body, allowing the body and mind to comfortably lie down and completely relax to enjoy bathing time.

Bottom Boss

The bathtub is equipped with a 65mm raised platform, providing comfortable bathing experience for different heights in the family.

Easy Clean

Good anti fouling performance, not easy to breed bacteria. Gently wipe the surface with a cloth, or rinse it directly with clean water without using too much cleaning agent, saving time, effort and worry.

Humanized Design

To restore the original, carefully select the materials

To restore the original, carefully select the materials: adhere to the initial heart, adopt the high-quality profile. It can have super strong load bearing and satisfy our perfect pursuit of exquisite surface, long lasting and can ensure the safety performance and service life of the products.

Aviation High Quality Profile

The aluminum material of Huida shower room adopts the aviation high quality profile of international standard 6463-T6, and its strength, elongation, hardness and other many important indicators are better than the European standards, even custom-made non-standard large size is not easy for deformation, which effectively guarantee the product using performance and service life.

304 Stainless Steel Profile

The touch sense of 304# stainless steel is hard and full of rich metallic texture, which is a very avant-garde and fashionable shower room material. Huda strictly complies with American ASTM standard to produce the industrial 304# stainless steel profile, with thickened design of more than 1.2mm, good bearing capacity, which is not easy to be deformed, and has strong corrosion resistance, to perfect display fine grinded 10K mirror effect, which is long lasting and as bright as new.

More reasonable and balanced support 3+2 Shaft strengthening design

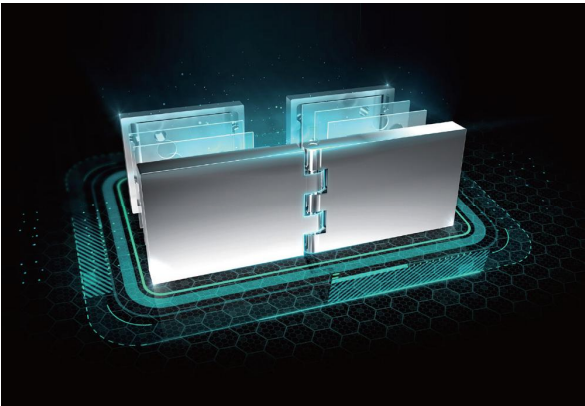

Add a support point compared to the traditional hinge, which can effectively balance the force, safe, stable and more durable.

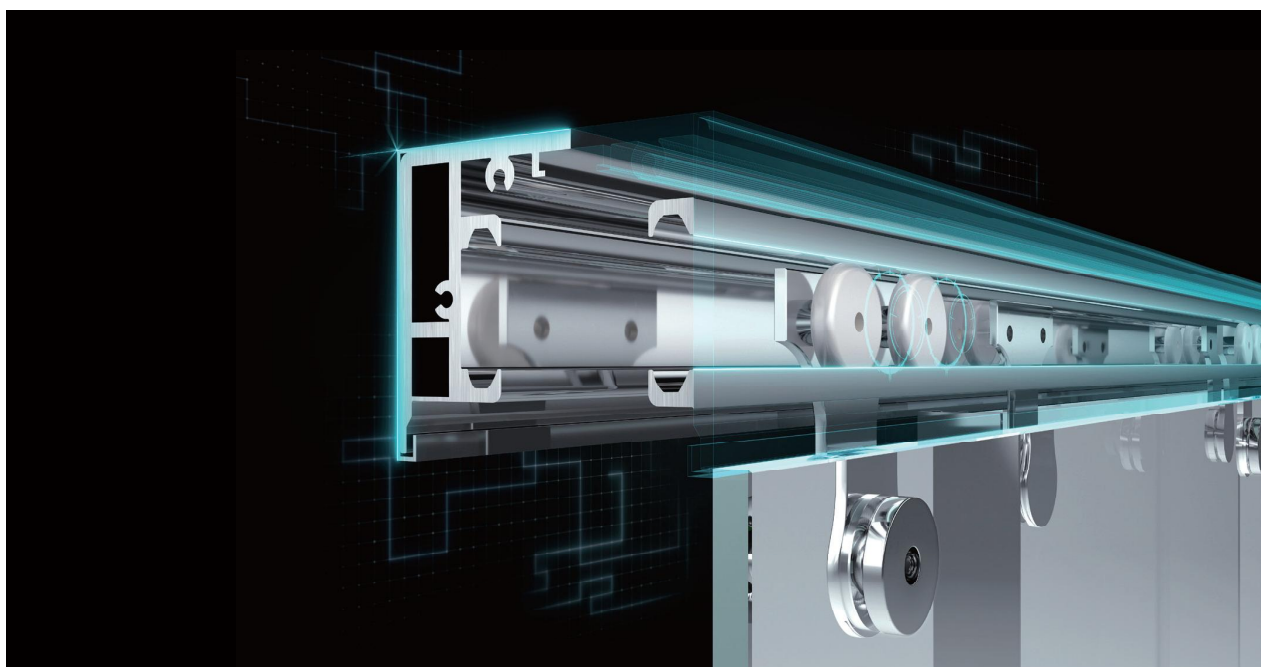

3+2 shaft
strengthening
design

Load bearing
of 50kg

Quiet Opening And Closing, Smooth Feeling

V type guide rail is smooth without derailing; dust proof design is added to protect the rail effectively, and the push pull effect will not be affected after long-term use, which is safe and durable.

Water sealing
technique

Dustproof
design

Buffer collision
avoidance

Buffering Anti-Collision Technology

Adopt the working principle of back and forth movement of the cylinder piston, with the design of buffer damping, to let the glass slow down and buffer from high speed during the moving process to reach safe closing state, slow down the impact force and strength, improve the service life of the product, and achieve the safe and practical goal.

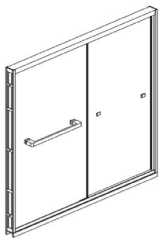

Seamless Seal Is Watertight

Anti-oxidation adhesive strip, magnetic strip + customized water retaining edge + stone base seal triple seal design, precise fit with glass, frame profile, effectively prevent the overflow of water flow during bathing, creating a dry and wet separation bathroom environment.

SENSOR SERIES

HD3016DC

Sensor mixer

Power DC 6V(4"AA" size alkaline batteries)
Working Temperature 4'C-45°C
Sensing Distance 28±2cm
Water Pressure Static 0,1MPa-0,7MPa

Suitable for Single Tap Hole

HD3017AC/DC

Sensor tap

Power DC 6V(4"AA" size alkaline batteries)
AC 220V 50/60Hz
Working Temperature 4'C-45°C
Sensing Distance 28±2cm
Water Pressure Static 0,1MPa-0,7MPa

Suitable for Single Tap Hole

HD3017AC/DC

Sensor tap

Power DC 6V(4"AA" size alkaline batteries)
AC 220V 50/60Hz
Working Temperature 4'C-45°C
Sensing Distance 28±2cm
Water Pressure Static 0,1MPa-0,7MPa

Suitable for Single Tap Hole

HDE505AC/DC

Sensor tap

Power DC 6V(4"AA" size alkaline batteries)
AC 220V 50/60Hz
Working Temperature 4'C-45°C
Sensing Distance 28±2cm
Water Pressure Static 0,1MPa-0,7MPa

Suitable for Single Tap Hole

HD3025AC/DC

Sensor tap

Power DC 6V(4"AA" size alkaline batteries)
AC 220V 50/60Hz
Working Temperature 4'C-45°C
Sensing Distance 28±2cm
Water Pressure Static 0,1MPa-0,7MPa

Suitable for Single Tap Hole

HD3026AC/DC

Sensor tap

Power DC 6V(4"AA" size alkaline batteries)
AC 220V 50/60Hz
Working Temperature 4'C-45°C
Sensing Distance 28±2cm
Water Pressure Static 0,1MPa-0,7MPa

Suitable for Single Tap Hole

HDE515AC/DC

Sensor mixer

Power DC 6V(4"AA" size alkaline batteries)
AC 220V 50/60Hz
Working Temperature 4'C-45°C
Sensing Distance 28±2cm
Water Pressure Static 0,1MPa-0,7MPa

Suitable for Single Tap Hole

HDE511AC/DC

Sensor tap

Power DC 6V(4"AA" size alkaline batteries)

AC 220V 50/60Hz

Working Temperature 4°C-45°C

Sensing Distance 28±2cm

Water Pressure Static 0,1MPa-0,7MPa

Suitable for Single Tap Hole

HDE502AC/DC

Sensor tap

Power DC 6V(4"AA" size alkaline batteries)

AC 220V 50/60Hz

Working Temperature 4°C-45°C

Sensing Distance 28±2cm

Water Pressure Static 0,1MPa-0,7MPa

Suitable for 4" Three Tap Holes

HDE503AC/DC

Sensor tap

Power DC 6V(4"AA" size alkaline batteries)

AC 220V 50/60Hz

Working Temperature 4°C-45°C

Sensing Distance 28±2cm

Water Pressure Static 0,1MPa-0,7MPa

Suitable for 4" Three Tap Holes

HDE504AC/DC

Sensor tap

Power DC 6V(4"AA" size alkaline batteries)

AC 220V 50/60Hz

Working Temperature 4°C-45°C

Sensing Distance 28±2cm

Water Pressure Static 0,1MPa-0,7MPa

Suitable for 4" Three Tap Holes

HD301AC/DC

Sensor tap

Power DC 6V(4"AA" size alkaline batteries)

AC 220V 50/60Hz

Working Temperature 4°C-45°C

Sensing Distance 28±2cm

Water Pressure Static 0,1MPa-0,7MPa

Suitable for 4" Three Tap Holes

HD3024AC/DC

Sensor tap

Power DC 6V(4"AA" size alkaline batteries)

AC 220V 50/60Hz

Working Temperature 4°C-45°C

Sensing Distance 28±2cm

Water Pressure Static 0,1MPa-0,7MPa

Suitable for 4" Three Tap Holes

HD308AC/DC

Sensor tap

Power DC 6V(4"AA" size alkaline batteries)

AC 220V 50/60Hz

Working Temperature 4°C-45°C

Sensing Distance 28±2cm

Water Pressure Static 0,1MPa-0,7MPa

Suitable for 4" Three Tap Holes

SENSOR SERIES

HD-01AC/DC

Urinal Sensor

Power DC 6V(4"AA" size alkaline batteries)
AC 220V 50/60Hz
Working Temperature 4'C-45'C
Sensing Distance 70±5cm
Water Pressure Static 0,1MPa-0,7MPa

Suitable for Urinal

Unit Bathroom

ADVANTAGE IN CONSTRUCTION

1. Reduce construction costs.

Traditional Bathroom		Huida Unit Bathroom
 Manpower	→	 2 Men only
 Transport times	→	 1 time transport only

2. Short installation period. Dry construction method, 2 men 4 hours only.

Traditional Bathroom		Huida Unit Bathroom
16 days Construction period	→	4 ^h 4 Hours

3. Without cross operations.

NO TILES
WORK

NO EMBED
PIPELINE

NO WATERPROOF
WORK

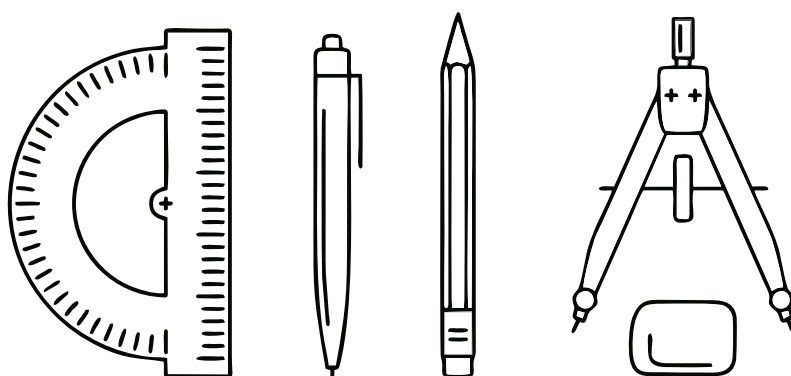

NO BRICKLAYER
WORK

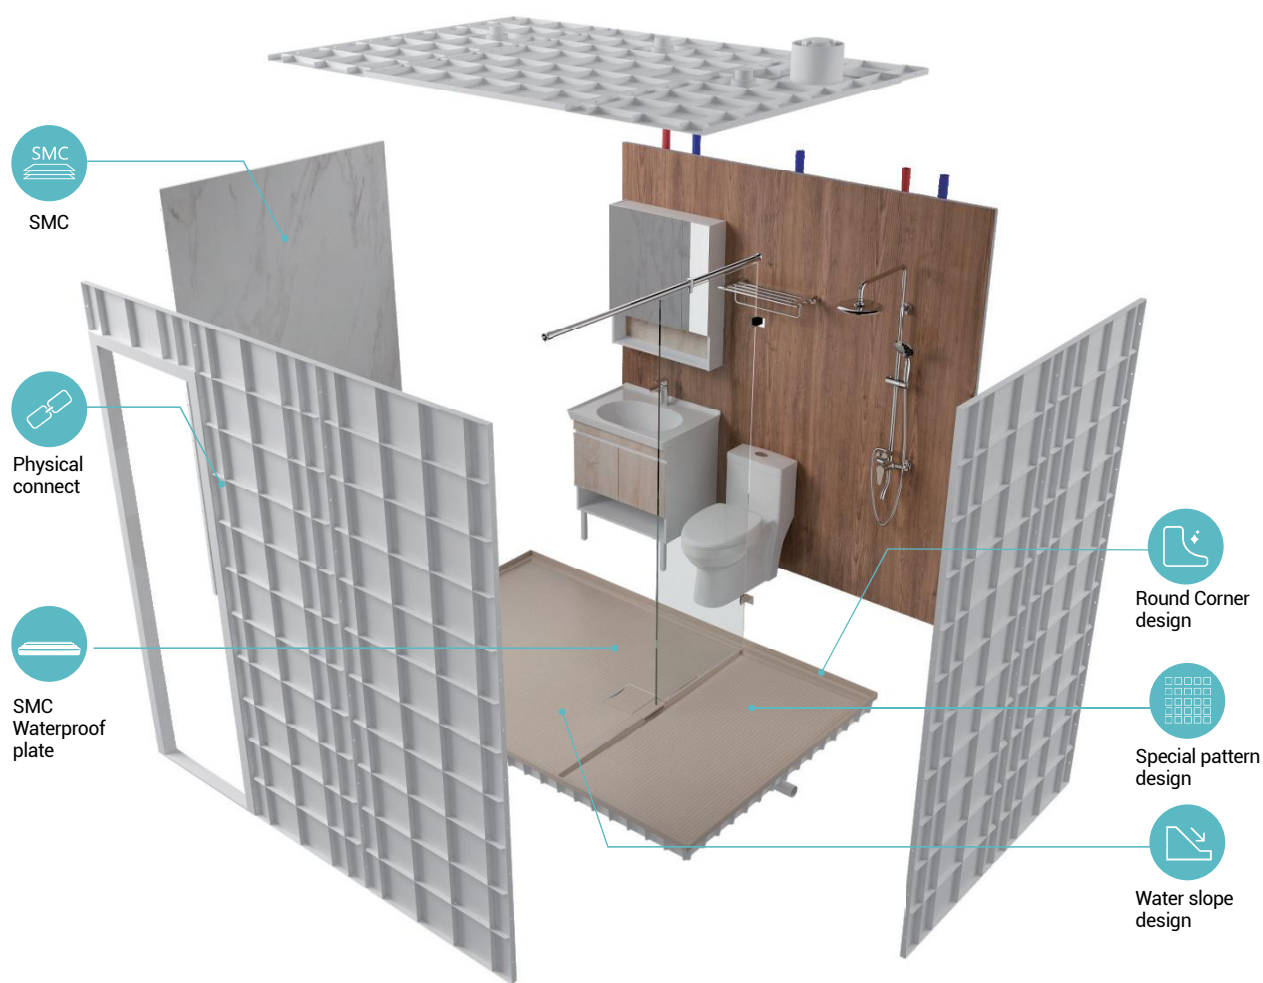

4. Energy conservation, environment friendly.

Traditional Bathroom		Huida Unit Bathroom
	→	 Water saving 90%
	→	 Power saving 47%
	→	 CO2 release: Only 14% of traditional bathroom's
 Noise&Dust pollution	→	 Low decibel noise Without water and Dust pollution

5. Customized product, cater to different customer needs. Multiple choices on dimension and pattern.

AERONAUTICAL MATERIAL-SMC

SMC (Sheet molding compound) is a ready to mold glass fiber reinforced polyester material, a kind of composite and environmental friendly material, with high temperature and pressure integrated process, the surface becomes glossy, compact and hardness, besides that, it also with formaldehyde-free, heat insulation, non-absorbency, slip-resistant and comfortable touch performance etc. SMC material is widely used to produce parts for air plane、train、car、machine etc, in USA, Japan, Canada, Australia and European countries, the material also used to produce bathtub、shower tray、washbasin、laundry tub and wall panel product.

Loading bear
60kg/cm2

Heat
insulation

"0"
formaldehyde

Life time
20 Years

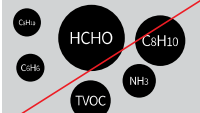

SMC SYSTEM UNIT BATHROOM ADVANTAGES

1. HEALTH AND ENVIRONMENTAL FRIENDLY.

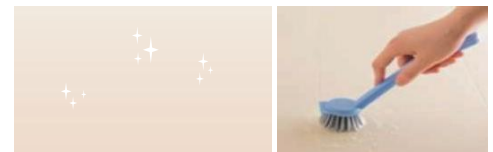

SMC material with low level harmful gas release, the value of formaldehyde meet E0 Grade.

Grade	Formaldehyde (mg/m ³)
E0	≤0.5/m ³
E1	≤9.0/m ³
E2	≤30/m ³

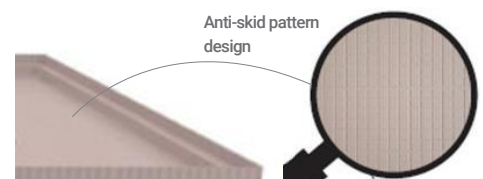

2. STANDARD PRODUCE PROCESS.

By standard mold, the product with high and stable quality, after process the surface without any tiny hole, easy for clean.

3. SPECIAL CARE IN DESIGN

Round corner and anti-skid pattern design, a kind of special love.

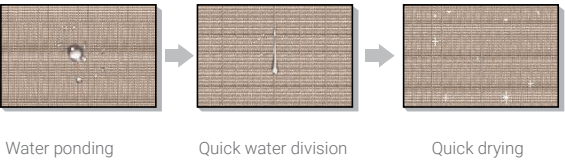

4. THERMAL ENVIRONMENT DESIGN

Special insulation layer design, lock the temperature.

TECHNOLOGY

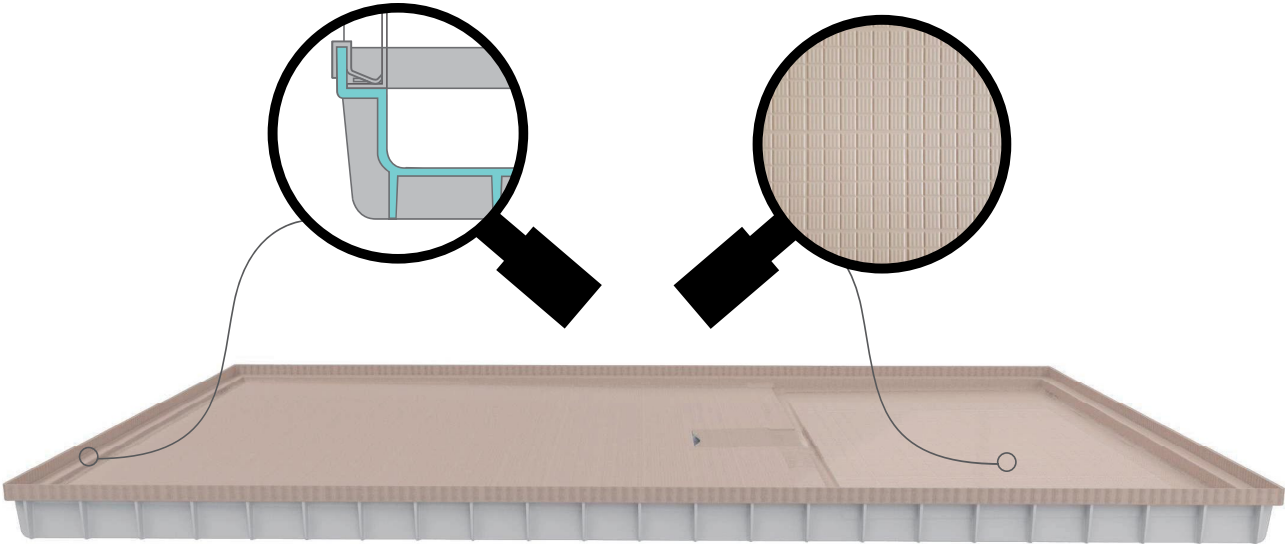

The waterproof plate adopts standard mold to produce, integrated forming. The waterproof plate with high quality and excellent waterproof performance, besides that, it also with 12‰ water slope, accelerates the speed of water drain.

Special bumpy pattern design, destroy the tension of water, accelerates the speed of water drain.

Round corner design

Special anti-skid patter design

FAST WHIRLPOOL DRAINAGE

SPECIAL FILTER DESIGN

Without block trouble, easy for clean.

SPECIAL WHIRLPOOL DRAINAGE DESIGN

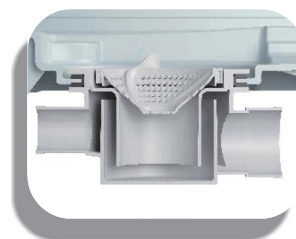

Special water diversion and big trap design, accelerate the speed of water drain.

50mm
water seal

STINK SEPARATION

50mm thickness water seal design, prevent the stink out.

INTEGRAL STRUCTURE

The floor drain adopts integral formed structure, without leakage risk.

TILE SYSTEM UNIT BATHROOM

Huida Unit bath (Tile system) adopts PU or aluminum honeycomb material, the dimension can be customized according to the different requirement, the installation period is very short, besides that, it also with excellent environmental friendly and long service life performance.

Multiple Options In Finishing Category

Sintered Stone

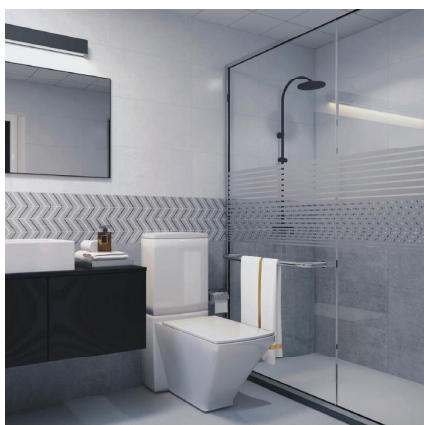

Marble

Polished Tile

Rustic Tile

Inner wall tile

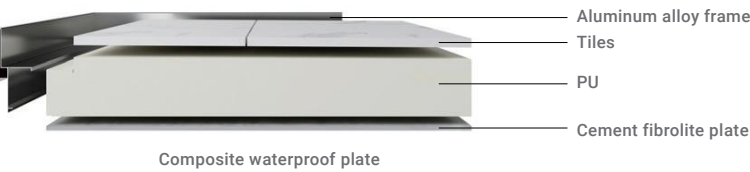

Ceramic Sheet

MAIN BODY MATERIAL

The wall panel is adopt to PU or AH material, it can be customized according to the client's requirements, the installation process like build block, much easier than traditional decoration method, less sound waste and without building waste, more environmental friendly.

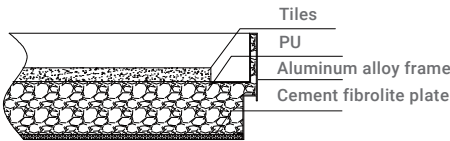

Excellent quality aluminum alloy frame, it with strong and high efficient anticorrosion performance, the tiles can be selected from kinds of dimension, the waterproof level adopts excellent quality PU and fiberglass, the cement fibrolite plate is composite by PU and fiberglass, the waterproof plate with waterproof and high strength performance, besides that, it also with stable structure and heat insulation performance.

KEY COONECTION POINT

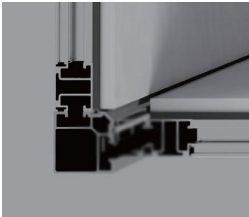

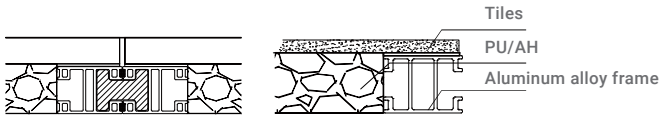

Special mortise and tenon joint structure, strong and stable.
Water seal structure design with excellent waterproof performance, no leakage phenomenon.
